P.T.O.

VII) Read the Passage carefully and answer the following questions: **1X4=4**

One major problem that the world faces today is the rapid growth of population. This, many believe that , is due to better food, better hygiene and the advance in medicine. Until the beginning of the 19th century, most people died before the age of 50. Today the average life span has become 70 year. The possible check is birth control. Failures to check population increase will lead to rise in unemployment, low economy, more demand for food and eventually a rise in crime rate.

I) Questions:
1) Which country stands first in population?
2) How do you think that The population is increasing?
3) How can we check population growth?
4) Mention any two consequences of population explosion?

VIII) Write an application to the School Principal to stop serving the junk food in school canteen.   **1x4=4**

IX) Answer the following questions: **1X4=4**
1) Why did Reena want to learn the magic trick?
2) What did the villagers do for a living?
