## KHANNUR VIDYANIKETHAN SCHOOL, RANEBENNUR SECOND PERIODICAL ASSESSMENT SEPTEMBER 2020

Grade: III Subject: COMPUTER SCIENCE Mark: 20

|                                       | (Use COMPUTER )                | SCIENCE   | H W Note Bo   | OK TO ANSWE          |       |
|---------------------------------------|--------------------------------|---|---|----------------------|-------|
| I) Choo                               | se the correct option:         |   |   |                      | 1x3=3 |
| 1                                     | CU stands for                  |   |   |                      |       |
|                                       | a) Computer Unit               |   | b) Compact Unit   |                      |       |
|                                       | c) Control Unit                | d) None of these                                |   |                      |       |
| 2                                     | ) Which one of the following   | g is not an exar                                | nple of hardware?   |                      |       |
|                                       | a) Monitor b) 1                | Printer   | c) MS Paint   | d) Keyboard          |       |
| 3                                     | ) A microprocessor is a com    | bination of                                     | •   |                      |       |
|                                       | a) CPU and Monitor             |   | b) Printer and Mouse  |                      |       |
|                                       | c) ALU and CU                  |   | d) None of these  |                      |       |
| m Fill i                              | n the blanks:                  |   |   |                      | 1x3=3 |
|                                       | ) is the backbone              | e of the Compu                                  | ter.  |                      | TAO O |
|                                       | The physical parts of the C    | _   |   | form tasks are calle | ed    |
| 3                                     | ) A digital camera is used to  | take  | _   |                      |       |
|                                       | ite T for True and F for Fals  |   |   |                      | 1x3=3 |
| ,                                     | ) CPU stands for Central Pr    |   |   |                      | 143 3 |
|                                       | ) Hardware cannot be repla     | _   | d.  |                      |       |
| · · · · · · · · · · · · · · · · · · · | ) Software is a set of instruc | _   |   |                      |       |
|                                       | tch the columns:               | <u> </u>  | •   |                      | 1x3=3 |
| ı v ) ıvıav                           | Column A                       |   | Column B  |                      | 140 0 |
| 1                                     | 1) System software             |   | <ul><li>a) Controls all processes of computer.</li><li>b) Manages all activities of computer.</li></ul> |                      |       |
| 2) Mouse                              |                                | ŕ   |   |                      |       |
| 3) Control Unit                       |                                | c) Takes pictures and supplies to the computer. |   |                      |       |
| ŕ                                     | ,                              |   | form all tasks othe   | -                    |       |
| V) Ancy                               | ver the following questions:   | , •   |   | ••                   | 1x4=4 |
|                                       | ) What is hardware?            |   |   |                      | 144 4 |
|                                       | ) What is ALU?                 |   |   |                      |       |
| 3                                     | ) What is software?            |   |   |                      |       |
| 4                                     | Write any two differences      | between hardy                                   | vare and software.  |                      |       |
| VI) Exp                               | and:                           |   |   |                      | 1x4=4 |
| _                                     | ) ALU –                        |   |   |                      | 144 4 |
|                                       | ) CU –                         |   |   |                      |       |
| · · · · · · · · · · · · · · · · · · · | ) CPU –                        |   |   |                      |       |
| 4                                     | ) LCD –                        |   |   |                      |       |
| •                                     |                                | ***   | <b>**</b> *   |                      |       |
